TABLE I.

Area, Houses and Population.

1. The figures in this Table relate to the whole of the Indian Empire except East Manglun and an unadministered tract in North Arakan, both in Burma, with an aggregate area of about 5,000 square miles, and certain tracts beyond the administrative frontier in Assam and Burma, which are inhabited by Abors, Mishmis, Singphos, Was and other wild tribes.

2. The difference between the total population here shown and that recorded in the pamphlet issued in October 1911, is due to the inclusion of the figures for Kharan in Baluchistan, the enumeration of which was delayed for about six months owing to political reasons.

3. Although situated in Arabia, Aden is administered as a part of the Bombay Presidency. It is therefore included in this Table. Not so the Kuria Muria Islands, Sokotra or the Protected States adjoining Aden on the mainland. Nothing is known regarding the population of the Kuria Muria Islands except that it is very small. The population of Sokotra is roughly estimated at 5,000, and that of the Protected Tribes on the mainland at 607,200. The details are as follows:—Abdali 25,000; Subehi 27,000; Fadthli 35,000; Amiri (Ahl-Radfanshaari, Jabal Jihaf Extra) 50,000; Akrahi 1,000; Upper Aulaki (Sultan and Sheikh) 60,000; Lower Aulaki 20,000; Behan Al Kasab 11,000; Upper Yafai 100,000; Lower Yafai 60,000; Alawi 1,500; Kaiti (All Hadthramaut), Kathiri, etc., 200,000; Wahidi of Balahaf 5,000; Wahidi of Bir Alli 3,000; Irka 200; Haura 300; Haushabi 8,200.

4. The Table does not include the population of French and Portuguese India. The census of French territory was effected on the 10th March 1911, at the same time as that of British India, when it was found to have 282,386 inhabitants (males 138,563 females 143,823. of whom

		Andamanese	1,317
		Nicobarese (Shom Pen)	375

In the tracts marked with an asterisk a simplified form of schedule was employed. Elsewhere the population was estimated. The manner in which the estimates were made is described in the Introduction to the Report Volume.

8. The difference between some of the areas here shown and those in the corresponding Table of 1901 is due partly to the inclusion of the area of the Sundarbans and of several newly enumerated tracts, partly to interprovincial transfers, and partly to corrections made on the basis of recent surveys. There was an error of 5,000 square miles in the area of the border State of Manipur as reported at the last census.

9. The figures for Madras States in this and subsequent Tables, as a rule, include those for Cochin and Travancore. The census of these States was carried out independently, and their statistics do not appear in the Report for the Madras Presidency.

10. In Table XIX at the end of the volume, the more important figures are given for the districts in each province and for Native States not shown separately in the general Tables. For further details regarding these units the local census reports should be referred to.

Note—The district of Bikaner which forms an area of the Bikaner State has been omitted from the statement as it is administered as part of the Bikaner Province and its population is included in the Census Tables of that Province.

TABLE II.

Variation in Population since 1872.

1. The population returned at previous censuses has been corrected, as far as possible, in order to allow for subsequent interprovincial transfers. Manipur, which was treated as British territory in 1901, has now been entered under the head States and Agencies. The tribal areas in the North-West Frontier Province have also been shown under the latter head. Sikkim, which in 1901 was classed under Bengal States, is now shown separately. In four cases the figures differ from those now given in the local reports—the Kashmir Superintendent has included in his figures for 1891 the present population of the Frontier Ilagas which were not then enumerated; in Burma, though the total population of 1891 agrees, there is a small discrepancy in the details by sex, due to the adjustments made locally to allow for internal changes of jurisdiction; in the North-West Frontier Province a discrepancy of ten occurs in the sex details of the 1881 population; and the Rajputana Table includes 167,850 persons enumerated in 1881 in three parganas of the Tonk State who were omitted from the Imperial Tables for that census. These parganas are here treated as enumerated for the first time in 1891, *vide* paragraph 3 below.

2. In some cases the figures entered for 1872 refer to censuses taken in other years, *viz.*, Ajmer-Merwara 1876; Berar, 1867; Coorg, Madras and Mysore, 1871; Punjab, 1868; Oudh, 1869; Cochin and Travancore, 1875.

3. The areas newly enumerated at each census with their population are noted below:—

1911. Unadministered area (the Sema and eastern Angami villages) in the Naga Hills (39,586), in Assam; Makran (71,942), Western Sinjrani country (1,620) and Kharan (22,663) in Baluchistan; Unadministered area in Pakokku Hill Tracts (9,123), West Manglun (18,562) and Kokang (25,604) in Burma; Agencies and Tribal areas, except Malakand, Kurram and Shirani country, (1,604,265) in the North-West Frontier Province.

Total 1,793,365.

1901. Native Tribes (8,393) in the Andamans; South Lushai (26,129) and Manipur (284,465) in Assam; Baluchistan, except Makran, Western Sinjrani country and Kharan, (510,746); Shan States and part of Upper Burma (1,237,749); Malakand (Dir, Swat and Chitral) 8,128, Kurram (54,257) and Shirani country (12,371) in the North-West Frontier Province; the Bhils of Mewar, Kushalgarh and Dungarpur and the Grassias of Sirohi (estimated at 229,839) in Rajputana.

Total 2,672,077.

1891. North Lushai (43,634) in Assam; Upper Burma, excluding Shan States, (2,946,933); Burma Frontier population (116,493); Biloch Trans-Frontier area (5,934) in the Punjab; Kashmir (2,543,952); Chhabra, Pirawa and Sironj parganas (181,135) of the Tonk State, detached districts of Nandwas and Gangapur situated in Mewar (18,118), and the Bhils of Banswara and Partabgarh (estimated at 48,315) in Rajputana; Sikkim (30,458). *Deduct* population in 1881 of the Manipur State (221,070). The schedules of the 1891 census were destroyed in the disturbances which took place in March 1891 before the results had been tabulated.

Net Total 5,713,902.

1881. Convict Settlement of Port Blair (14,628); Manipur (221,070) in Assam; Central India Agency (9,261,907); Hyderabad State (9,845,594); Punjab States (3,861,683); Rajputana Agency (9,934,199).

Total 33,139,081.

4. On pages 9 and 10 details are given of the variation in the population of certain States which are not shown separately in the body of the Table.

5. The figures for Madras States include those for Cochin and Travancore, which are given separately on page 10.

TABLE III.

Towns and Villages Classified by Population.

1. The population here dealt with falls short of that in Table I by 1,622,094 persons in the Agencies and tribal areas of the North-West Frontier Province, where statistics of the number of villages are not available.

2. In this Table, as in Tables I, IV and V, a cantonment adjoining a municipality has been treated as an integral part of it.

3. In the districts in which a revenue and cadastral survey has been carried out, the mauza or survey village has been taken as the census village. Elsewhere it is the residential village, or group of houses bearing a separate name, small outlying hamlets being ordinarily treated as part of the main residential villages to which they appertain.

4. Travellers enumerated in encampments, boats and trains, etc., have, as a rule, been shown separately in this Table, whereas in Tables IV and V they have been included in the population of the town in which the place of enumeration is situated.

5. The figures for Madras States include those for Cochin and Travancore, which are as follows:—

Note 1—The figures in this statement include the States included to each Province but those for Madras exclude Cochin and Travancore

Note 2—In a few cases towns have been subdivided since 1901 e.g. Balasore in Bengal has been separated from Balasore and given its own municipal administration. Such changes have not been taken into account in this statement

TABLE V.

Towns arranged Territorially with Population by Religion.

1. This Table shows the territorial distribution of the urban population by religion.

2. As in Table IV, the towns are grouped into six classes according to their population. Those in the first three classes are entered separately in alphabetical order. Those in the last three are not shown in detail: only the total number of towns in each class is given with their aggregate population.

3. The figures for Madras States include those for Cochin and Travancore, which are given separately on page 36.

4. The Column "Others" includes the following:—

TABLE VII.

Age, Sex and Civil Condition by Religions.

1. The age shown in this Table represents the number of years completed and not the current year of age. Divorced persons have been entered as "Widowed." Persons recognized by custom as married have been shown as such, even though they have not gone through any formal ceremony.

2. The Table is divided into two parts. Part I contains the statistics for the total population of India and for each religion. Part II contains the statistics for the total population and three (numerically) most important religions of the main Provinces and States.

3. The population here dealt with falls short of that in Table I by 2,512,703 persons enumerated in tracts where age and civil condition were not recorded, as noted below :—

	Persons.	Males.	Females.
<i>Included in Tables I and VI.</i>	<i>904,147</i>	<i>485,378</i>	<i>418,769</i>
Andamans and Nicobars	1,692	818	874
Baluchistan	352,218	190,583	161,635
Burma	76,134	38,023	38,111
Baluchistan States	419,478	226,565	192,913
Kashmir State	54,625	29,389	25,236
<i>Included in Table I, but not included in Table VI.</i>			
North-West Frontier Province	1,603,556	852,235	756,321
Total	2,512,703	1,337,613	1,175,090

4. The distribution by religion of the 904,147 persons omitted from this Table but included in Table VI is as follows :—

Hindu	17,548	9,992	7,556
Arya	1	1	..
Sikh	3,371	1,823	1,548
Buddhist	225	133	92
Musalman	805,371	434,733	370,638
Christian	7	5	2
Animistic	77,624	38,691	38,933

A further difference between the number of Hindus, Aryas and Brahmos as shown in this Table and in Table VI is due to the fact that in the Punjab the figures for Aryas (Total 100,783, males 57,928, females 42,855) and Brahmos (Total 700, males 396, females 304) were amalgamated with those for Hindus.

5. Jews, who were shown separately in Table VI, have here been included in "Minor and Unspecified."

6. The figures for Madras States in Part II include those for Cochin and Travancore.

TABLE VIII.

Education.

1. This table, like Table VII, is divided into two parts. Part I is a summary statement for the whole of India. Part II contains the statistics for the total population and three main religions of the larger Provinces and States. The figures for persons literate in English (columns 11 to 13) are included in those for total literate (columns 5 to 7).

2. The population here dealt with falls short of that shown in Table I by 1,741,007 persons (males 920,465, females 820,542) as detailed in the margin and of that shown in Table VI by 132,451 persons, viz. :—Hindu, 399 males, 47 females; Arya, one male; Sikh, 24 males, 2 females; Buddhist, 133 males, 92 females; Musalman, 28,977 males, 25,145 females; Christian, 5 males, 2 females, and Animistic, 38,691 males, 38,933 females. A further difference between the number of Hindus, Aryas and Brahmos as shown in this table and in Table VI is due to the fact that in the Punjab the figures for Aryas and Brahmos were amalgamated with those for Hindus. As in Table VII, Jews who were shown separately in Table VI, have been included under the head "Minor and Unspecified." This table includes 771,696 persons in Baluchistan who were omitted from Table VII. The figures for Madras States in Part II include those for Cochin and Travancore.

3. The figures in the body of the table refer to Christians of all races. Some statistics for Indian Christians only are noted below :—

TABLE IX.

Education by Selected Castes, Tribes or Races.

1. This table has been prepared for all Provinces and States except the Andamans and Nicobars. Its object is to throw light on the progress made in education by the different classes of the community. In the Provincial volumes all the more important castes have been dealt with. In this Table for the whole of India statistics are given only for a sufficient number of castes to illustrate the degree of education in the various social strata. The statistics for Ajmer-Merwara, Coorg and Sikkim have here been left out of account, as the number of persons dealt with is relatively insignificant. The figures for Provinces include those for the States attached to them, except in the case of Bombay, where this Table was compiled for British Territory only, and Madras, where they exclude those for Cochin and Travancore.

2. Within each Province, State or Agency, the castes are arranged in order of merit, i.e. according to the proportion of literate persons in each.

3. As in Table VIII, the figures for persons literate in English (columns 8 to 10) are included in those for total literate (columns 5 to 7).

4. The total strength of a caste in this Table does not necessarily tally with that in Table XIII, as the latter includes figures added in the course of classification which the present Table does not. The strength of a few castes is also not the same as in Tables XII-A and XIV owing to the fact that figures have been compiled for different local areas. Finally the same castes have not always been selected for the purpose of each of the three Tables.

TABLE X.

Language.

1. The population dealt with in this Table falls short of that in Table I by 1,66,181 persons who were enumerated in tracts where language was not recorded, viz., 51,625 in the Gilgit Agency in Kashmir and 1,608,556 in the Agencies and Tribal areas of the N.-W. F. Province. The figures for Madras States include those for Cochin and Travancore which are detailed at page 119.

2. The areas which have been included in this Table for the first time are as follows:—

Assam—Sema and Eastern Angami Villages in the Naga Hills.

Baluchistan—The whole except the areas (population 18,707) which were enumerated in 1901 on the standard schedule.

Burma—Karenni, Kachin districts of North Bhenwi, Chin Hills, Pakokku Hill Tracts, West Manglun and Kokang; and parts of Bhamo, Myitkyina, and Upper Chindwin.

Punjab—Biloch Trans-Frontier area.

3. The Table is divided into four parts. Part I is a general statement showing the number of persons who speak A. Vernaculars of India, B. Vernaculars of other Asiatic countries and Africa and C. European languages. In Part II the languages are arranged according to linguistic families. Part III shows the territorial distribution of each language and Part IV the linguistic distribution of the inhabitants of each Province, State or Agency. In Part III and IV the languages have been arranged alphabetically. The more important dialects are shown in italics below the languages to which they appertain.

4. Dialects have been dealt with in the manner indicated in the Index of Indian languages printed at pages 261—292 of the India Administrative Volume, 1901, with such modifications (suggested by Sir George Grierson) as have been found necessary in view of the progress since made by the Linguistic Survey. In a few cases, as noted below, this latter information was not available in time for use in the Provincial Language Tables, and the classification

TABLE XI.

Birthplace.

This Table is divided into four parts:—

Part I—Is a general summary giving for the whole of India and for each Province, State or Agency the number of persons born in India, in other Asiatic countries, in Europe, in Africa, and so on. The distinction made in 1901 between Asiatic countries adjacent to India and other Asiatic countries has not been maintained. Some countries are adjacent in a geographical sense, but the bulk of the migration which takes place follows other channels than the common boundary. This is the case for instance with China and Persia.

Part II—The general groups of Part I are here distributed amongst the particular countries of which they are made up, and details are given for the whole of India and for each Province or State, showing the number of persons born in different parts of India, in Afghanistan, China, the United Kingdom, Cape Colony, Canada, etc.

Part III—Illustrates internal migration. Column 2 gives the total number of immigrants, that is to say of persons born in other parts of India, who were enumerated in the Provinces or States entered in the first column. Column 3 treats as emigrants those persons who were born in the Provinces or States shown in column 1, but were enumerated in other parts of India. The fourth column shows the balance of emigration or immigration in each case, and the subsequent columns give particulars of the net interchange of population which goes to make up the balance for or against any given Province or State. The details working up to the totals will be found in Part II. To take a simple instance—46 persons born in Ajmer-Merwara were enumerated in Assam, and 6 persons born in Assam were enumerated in Ajmer-Merwara. The difference 40 represents the net emigration from Ajmer-Merwara to Assam and appears first in column 5 as the net gain of Assam from Ajmer-Merwara, and again in column 7 as the net loss of Ajmer-Merwara to Assam. Of the gross figures 46 is shown with details of sex in Part II under Assam, while 6 is entered under Ajmer-Merwara. As Part III deals only with internal migration, immigrants born outside India (including French and Portuguese Settlements) as well as those Indians whose birthplace was not specified are excluded from the statistics. An attempt will be made in the body of the Census Report to strike a balance between immigration and emigration for India as a whole.

Part IV—Shows the distribution according to the place of Enumeration at the census of the persons born in each Province, State or Country.

2. In Parts II, III and IV Cochin and Travancore have been treated as separate units, but under each Province, State or Country their figures have been included, except where otherwise stated, in those for Madras States.

* Note.—The figures in this statement include the States attached to each Province but those for Madras exclude Cochin and Travancore.

In Ajmer Merwara, Rajputana and Kashmir persons suffering from more than one infirmity were counted twice or three times over for the purpose of columns 2 to 4. In the remaining provinces and states such persons were treated as suffering from one infirmity only, the others being ignored. In Bombay this procedure has resulted in the omission from the Table of 11 (9+2) blind persons who were also lepers and of 45 (41+4) who were also insane of 4 (1+3) deaf mutes who were also lepers, 155 (134+21) who were also insane and 28 (15+13) who were also blind.

TABLE XII-A.

Infirmities by Selected Castes, Tribes or Races.

1. The principle followed in selecting castes for this Table is practically the same as that described in the explanatory note to Table IX. For the reason there given the total strength of a caste in this Table does not necessarily tally with that in Table XIII.

2. Within each Province, State or Agency the castes are arranged in alphabetical order.

3. The statistics for Ajmer-Merwara, Andamans and Nicobars, Coorg and Sikkim have been omitted, as the number of persons there dealt with is relatively insignificant. The figures for Provinces include those for the States attached to them, except in the case of Bombay, where this Table was compiled for British Territory only, and Madras, where they exclude the figures for Cochin and Travancore.

TABLE XIV.

Civil Condition by Age for Selected Castes.

1. This Table contains statistics of civil condition by age for selected castes and tribes, whereas Table VII deals with the total population. The object of the table is to illustrate the relative prevalence of infant marriage and the prohibition of the remarriage of widows among the various social strata in different parts of India. For the reason given on the title page of Table IX the total strength of a caste in this Table does not necessarily tally with that in Table XIII.

2. Within each Province, State or Agency the castes are arranged according to the frequency of infant marriage, *i.e.*, according to the proportion which the number of married females under 12 years of age bears to the total female population. As in Part II of Table XIII, each caste has been shown under the name most common in the Province or State concerned.

3. The figures for Provinces include those for the States attached to them, except in the case of Bombay, where this Table was compiled for British territory only, and Madras, where they exclude the figures for Cochin and Travancore.

TABLE XV.

Occupation or Means of Livelihood.

PART A.—GENERAL TABLE OF OCCUPATIONS.

1. For the purpose of this Table a new scheme of classification, based on that drawn up by M. Hertillen, has been adopted at the present census. All occupations are divided according to this scheme into four main Classes and subdivided into twelve sub-classes, 55 Orders and 169 Groups. For further explanation Chapter XII of the Report Volume should be referred to.

2. This Table is divided into five parts, viz.—

Part A.—General Table of Occupations.

Part B.—Number of Agriculturists with subsidiary Occupations (Actual Workers only).

[Part C.—Number of persons following selected subsidiary Occupations combined with certain principal Occupations. This Part, the compilation of which was optional, was not prepared in all provinces, and even where prepared the occupations selected were not always the same. A consolidated table for India as a whole could not therefore be compiled.]

Part D.—Distribution of Occupations by religion.

Part E.—Statistics of Industries. The scope of this Part is explained in the explanatory note prefixed to it.

3. Part A is further sub-divided into two sections. The first section contains a general summary giving the total strength of each Class, Sub-class, Order and Group for (a) India as a whole, (b) British territory and (c) States and Agencies. The second section gives for each Province, State or Agency the total strength of each Class, Sub-class and Order, and also of those groups the total strength of which is at least 50,000. In this section, to economize space the sex details have been dispensed with except in respect of the total number of Actual workers, while for the selected groups figures for 'Total Workers and Dependants' only have been given.

4. The population dealt with falls short of that in Table I by 1,686,382 persons who were enumerated in tracts where occupation was not recorded, viz.:—Andamans and Nicobars (1,622), Burma (76,134), and the Agencies and Tribal areas in the North-West Frontier Province (1,608,556). The figures for Madras States in section (ii) of this Part include those for Cochin and Travancore, separate figures for which by Orders will be found on page 316.

TABLE XV.

Occupation or Means of Livelihood.

PART B.—NUMBER OF AGRICULTURISTS WITH SUBSIDIARY OCCUPATIONS.

1. This Part shows the number of actual workers in Groups 1 (rent receivers), 2 (rent payers) and 4 (field labourers) who have subsidiary occupations. These details are not available for the Andamans and Nicobars and the Frontier Ilakas in the Kashmir State. Hence the total number of actual workers here shown does not quite agree with that given in Part A, section (i).

2. The figures for Provinces include those for the States attached to them, except in the case of Madras, where they exclude those for Cochin and Travancore which are shown separately.

TABLE XV.

Occupation or Means of Livelihood.

PART D.—DISTRIBUTION BY RELIGION.

1. This Part, the compilation of which was optional, was prepared for the Provinces, etc.,

Assam.	United Provinces.	noted on the margin. Statistics have been given
Baluchistan.	Baroda State.	
Bengal.	Central India Agency.	for all these units, but to economize space details
Bihar and Orissa.	Cochin State.	
Burma.	Hyderabad State.	for groups have been dispensed with.
C. P. and Berar.	Kashmir State.	
Punjab.	Travancore State.	

2. In Burma occupations were not recorded in the Pakokku Hill Tracts or in the estimated areas of Karenni, West Manglun and Kokang. The population of these areas has therefore been omitted. As in Tables VII and VIII, the figures for Hindus in the Punjab include Aryas and Brahmos.

TABLE XV.

Occupation or Means of Livelihood.

PART E.—STATISTICS OF INDUSTRIES.

1. Parts A to D of Table XV which were compiled from the general schedules give the main functional distribution of the people. The statistics in this Part regarding various industrial concerns, such as mines, mills, etc., were collected in a special schedule, which was filled in by the owners or managers of all factories, etc., in which at least 20 persons were employed on the date of the Census. This Part is divided into two sections. Section I contains information for the whole Empire regarding each kind of factory, etc., distinguishing between those factories in which mechanical power is used and those in which it is not, and classifying them according to the number of persons employed. Section II gives for each Province, State, or Agency the number of persons employed in each kind of factory, etc., without these details. In the corresponding Table in the Provincial Volumes two more sections have been added showing the caste and nationality of the owners and managers of important concerns.

2. For the purpose of this Part the various industrial undertakings have been divided into 16 main heads and 111 sub-heads, minor concerns not falling under these sub-heads being grouped together as 'Others.' When two or more industries are combined in one factory, the classification has usually been made with reference to the first named in the return: thus, a cotton ginning and rice husking and flour mill has been classed under "Textile Industries (cotton)." Certain factories in the United Provinces in which hand-power or bullock-power is used have been classed in the Provincial Table as factories having mechanical power. They have here been classed with those in which mechanical power is not used. The Upper Jhelum Canal construction, which was wrongly included in Kashmir Table XV-E, has been omitted from this Table.

3. The Statement below shows the factories, etc., which have been included in 'Others' under each main head:—

I.—Growing of Special Products.

Casuarina Plantation.
Cinnamon Plantation.
Copra Out-agency.
General Produce curing yard.
General Produce Work.
Harra Factory.
Pepper Estate.
Sugarcane Plantation.

II.—Mines.

Copper Mine.
Diamond Mine.
Galena Mine.
Graphite Mine.
Jade Mine.
Magnesite Mine.
Plumbago Mine.
Ruby Mine.
Salt Mine.
Silver and Lead Mine.

III.—Quarries of Hard Rocks.

Kankar Quarry.
Slate Quarry.
Soil Quarry.

IV.—Textile Industries.

Agave fibre spinning Mill.
Fibre Factory.
Industrial Home for weaving, carpentry, shoe-making, etc.
Senna Press.
Sisal.
Textile Institute.

VI.—Wood, etc., Industries.

Cane Factory.
Cask-making Factory.

VII.—Metal Industries.

Institute for teaching mechanical works.
Lead-smelting Workshop.
Metal stamping Works.
Metal vessel Factory.
Metal Works.
Repairing and Workshop.
Surgical and veterinary instruments Factory.
Type casting Works.
Weight and Measures making Factory.

IX.—Industries connected with Chemical Products.

Briquette Factory.
Extraction of Kaunt (Sap of berberis lycium).
Fish oil and fish manure Works.
Government Medical Store.
Ink Factory.
Manure Works.
Pencil Factory.

X.—Food Industries.

Condiment Factory.
Confectionery Factory.
Ginger-bleaching Factory.
Potato-meal Factory.

XI.—Industries of Dress.

Button and Comb Factory.
Laundry.

XIV.—Industries connected with Transport.

Aerial Ropeway.
Bridge Work including that of Railway.
Landing and Shipping Warehouse.

XVI.—Industries of Luxury.

Clock and Watch Works.
Map reproduction Factory.
Process engraving and Art printing Works.
Scientific and optical and musical instruments Workshop.
School of Arts.

4. The figures for Provinces include those for the States attached to them, except in the case of Madras, where they exclude Cochin and Travancore.

TABLE XVI.

Occupation by selected Castes, Tribes or Races.

1. This Table was not compiled in the Andamans and Nicobars ; while in Ajmer-Merwara, Burma, the North-West Frontier Province and Rajputana it was compiled only for Europeans, Anglo-Indians and Armenians. The present Table for all India contains a selection from the various Provincial tables. It is divided into two parts. Part I deals with the indigenous castes and tribes and Part II with Europeans, Anglo-Indians and Armenians. To economize space, figures for the smaller units, such as Baluchistan, Coorg, Cochin, etc., have been omitted from Part I.

2. For the purpose of this Table the occupations have been arranged under 13 main heads corresponding to the sub-classes of the scheme of classification adopted in Part A of Table XV: these heads have been subdivided where necessary, in order to distinguish between different occupations. Columns 7 to 10 of Part I are intended to throw light on the extent to which the traditional caste occupations are followed. The object of columns 11 and 12 is to make it possible to discount the tendency of functional castes to return their traditional occupations as their means of livelihood. Except in Bombay, where the contrary course has been followed, the figures in the subsequent columns are exclusive of the number of actual workers shown in columns 7 and 8 as following the traditional occupation. Statistics for columns 9 to 12 were not compiled for Bihar and Orissa, nor for the Presidency and Burdwan Divisions, Darjeeling and Cooch Behar in Bengal, nor for the State of Cochin.

3. Within each Province, State or Agency the castes are arranged in alphabetical order. The figures for Provinces include those for the States attached to them, except in the case of Bombay, where this Table was compiled for British territory only, and of Madras, where they exclude those for Cochin and Travancore. For the reasons given on the title page to Table IX the total strength of a caste in this Table does not necessarily tally with that in Table XIII.

4. As already noted, the statistics for Europeans, Anglo-Indians and Armenians are given separately in Part II of the Table. Such statistics were not compiled in Travancore, and in Cochin they were tabulated in a different form and so could not be incorporated here. In Baroda figures for Europeans and Anglo-Indians were amalgamated, while in Bombay they were compiled only for the Anglo-Indians in Sind. Columns 7 to 12 of Part I have been omitted from this Part.

5. Some supplementary statistics similar to those at pages 502-506 of the Bengal Census Tables for 1901 showing the distribution by caste of certain occupations have been compiled in Assam, Bengal, Bihar and Orissa and the Punjab. They have not been reproduced here.

TABLE XVII.

Christians by Race and Denomination.

1. This Table is divided into three parts:—Part I shows, by race, the total number of Christians in India distributed (*a*) according to their sect or denomination and (*b*) by locality. Part II shows the denominations returned by the Christian community of each Province, State or Agency and Part III gives the territorial distribution of each denomination. The term Anglo-Indian is used under the orders of the Government of India to designate the persons hitherto known as Eurasians. It includes all persons of mixed European and Asiatic descent. Goanese, when shown as such in the schedules, have been treated as Indian Christians; but some, no doubt, returned themselves as Portuguese or Eurasians. The Feringis of East Bengal (males 593, females 609) and of Assam (males 4, female 1) have been classed as Anglo-Indians for the purpose of this Table, but not so in Table XVIII. Armenians have here been grouped with “European and Allied Races;” their number will be found in Table XVIII.

2. Many denominational names were entered in the schedules other than those shown in this Table. The headings under which they have been tabulated are noted at the end of the Table.

3. The Christians of the following five missions are now organized as one body under the name of the “South India United Church,” *viz.*, the United Free Church of Scotland Mission in and about Madras, the Arcot Mission of the Reformed Church of America in the Arcot and Cuddapah districts, the American Madura Mission and the two great branches of the London Missionary Society—the Travancore Mission and the South India District Committee Mission. In order to permit of comparison with the returns of previous censuses, the adherents of each Mission have been shown according to its original denomination but it should be understood that the sectarian differences connoted by these names are now a thing of the past. For further information on this subject the Report Volume should be referred to.

4. The figures for Madras States include those for Cochin and Travancore.

Strictly speaking persons of Indefinite Beliefs should not be shown at all in Table XVII. Persons returned under the above heads, however, are usually Europeans, or Natives of India who have dervied their religious views from Europeans, and it is convenient to show them here. All the persons classed under this head in Travancore are adherents of the Yuyomayam sect, a curious offshoot from Christianity of which an account will be found in the Report Volume

TABLE XVIII.

Europeans, Armenians and Anglo-Indians by Race and Age.

1. The number of European and allied races given in this Table exceeds that shown in Table XVII owing to the inclusion of ten European males in Burma and one American female in Kashmir who were not returned as Christians. In Table VI the former were entered as Buddhists and the latter as Brahmo.

2. The difference of 1,206 in the number of Anglo-Indians is due to the exclusion from this Table of the marginally noted* Feringis who were classed as Anglo-Indians in Table XVII, and to the inclusion of one Anglo-Indian male in Kashmir who was entered as Musalman in Table VI.

3. The figures for Madras States include those for Cochin (males 1,299, females 1,225) and Travancore (males 1,161, females 988), the details of which are noted below:—

TABLE XIX.

Summary Figures for Districts.

1. This Table contains for easy reference a few of the salient figures for the individual Districts or States in each Province, State or Agency. For further particulars regarding these minor units the Provincial Census Reports should be referred to.

2. The figures for States in political relation with Local Governments are given below those for the British territory administered by the same Local Government.

3. The figures for the Central India Agency in this Table include those for the Gangapur pargana of Gwalior and Nandwai pargana of Indore, which are situated in the Mewar State of the Rajputana Agency. This is why there is a discrepancy between the area and population of the Central India and Rajputana Agencies as here shown and the corresponding figures in Imperial Table I

SPECIAL TABLES FOR CITIES.

A series of tables in the form of Imperial Tables VII, VIII, XI, XV and XVIII have been prepared for all cities. The term city is here used in its ordinary statistical acceptation, and includes only those places which contain a population of not less than 100,000 persons. In the Provincial Volumes smaller towns of local importance have sometimes been treated as cities.

In these Tables the population of Calcutta is exclusive of that of its suburbs—Cossipore-Chitpur, Manicktola and Garden Reach, and that of Bareilly excludes its cantonment.

* The figures for Bareilly do not include those for the cantonment as its statistics by age periods are not available.

TABLE XI.

Birthplace.

In this Table figures for Assam, Bengal and Bihar and Orissa as now constituted could not be given in all cases, as, in many Provinces the Table was compiled long before the new arrangement of Provinces had been announced. Bengal (Old) and Eastern Bengal and Assam therefore appear in this Table in some cases.

The figures for Madras in this Table are exclusive of those for Cochin and Travancore.

TABLE XV.

Occupation or Means of Livelihood.

This Table contains occupation statistics for each Class, Sub-Class, Order and Group in the Classified Scheme for the aggregate population of all cities taken together, and also separate figures for each of ten important cities. For the corresponding figures for the remaining cities the Provincial Volumes should be referred to. Actual Workers have been distinguished from Dependants, but sex details have been given only in the summary for all cities.
